Welcome to 2022

School opening : 19th of January 2022

A day full of excitement, nerves, being anxious and truly happy, the first day of school. It is where we as a school premises have new pupils who'll be joining our school or the family as we usually say. We're here to show the good and the bad days of high school. Even how we as a school premises play with books, how we cooperate and also how we truly are welcoming.

At the assembly, the most precious place where we pray and announce the most important things for the school. On the first day of school, the principal does the welcoming speech, most importantly welcoming the new ones which are the ones doing grade 8 telling them the pros and cons of high school.

A message from the Newsletter writer Natasha Mpondo to the new school pupils and the entire school : We are basically a school that finds ends to the beginning. Why? Let's be specific : When we say we find our ends to the beginning, we say the success of this school never ends, we're always hungry for success and being the well known. We are meant to be a historic school because we strive and always leave a mark. As a new person to the family have the characteristics of a St Matthew's learner. We welcome you to this wonderful school premises. There's still a lot to come.

Going to the pupils who have been here for years, let's teach them how it is done. As I said we find our ends to the beginning, success never ends here. We're meant to be like this, we are SAINTS. Kids you'll see how it is done. If you have the VOICE to speak, the body to play, the intellect join one of the school clubs that will be presented to you in each class. Remember to find your end to the beginning, the success will never end. I'm saying it repeatedly because I know how we as a school strive. It's time to play with the books, Saints. Welcome to St Matthew's.

Wishing everyone all the best in academics. Lets work on our achievements

St Matthew's first day of school.

Authores : Mpondo Natasha

8. Madasa phawu
9. Mali yonwaba
10. Rashalala linamandla
11. Klaas Lisakhanya
12. Tshoni Elam

We are looking forward to a productive, fun reading clubs in 2022.

Cape Town back yard arts festival.

Sifunda Kunye employee Sanga Mabulu attended a workshop in Cape Town 8 to 14 February 2022.

The concept of the backyard art/drama is an important concept as it showcased that talent can be showcased anytime at any location.

About theater in the backyard festival

Theater in the backyard mobile festival was held in Gugulethu, Cape Town. In this festival independent production were held in people's backyard. This create an immersive artistic experience for audiences and performers. As Mhlanguli George (artistic Director) vision is to bring the art to the people. By staging productions in the township area to create accessibility.

Sanga quote was that she has gained valuable knowledge that will assist her very own drama club at St Matthews in Keiskammahoek.

Sifunda Kunye drama club in session at our literacy center at St Matthews High School in Keiskammahoek.
